Platforms we work with, and how an engagement runs

Technologies and platforms

Microsoft 365

Microsoft Azure

AWS

Sophos

CrowdStrike

Wazuh

AvePoint

Forcepoint DLP

FortiGate

Palo Alto

VAPT

Blue Team

How an engagement runs

1

Assess

Review your current environment, security posture and requirements.

2

Plan

Agree the approach, sequence and success criteria with your team.

3

Implement or migrate

Deliver the work in line with the agreed plan.

4

Validate

Check that everything works as expected before hand-over.

5

Manage and support

Ongoing management, monitoring, support and optimization.

M365ProCare: managed Microsoft 365

An expert-managed, remote service for SMEs and mid-size organizations. Choose a tier and we tailor it to your user count, license type and security priorities.

Essentials

Baseline security, user management and monthly reporting.

Advanced

Everything in Essentials, plus Conditional Access and Defender management.

POPULAR

Ultra

Everything in Advanced, plus SIEM/XDR integration and incident reviews.

Compliance readiness

We help organizations prepare for audits and align their security practices with common frameworks. This is readiness and audit support. It is not a certification and does not guarantee compliance.

ISO 27001

SOC 2 Type II

GDPR

HIPAA

Frequently asked questions

Do you support both Azure and AWS?

Yes. We provide cloud services, migration, management and support for both Microsoft Azure and AWS.

Can you migrate us from Google Workspace to Microsoft 365?

Yes. We handle mail, contacts, calendar and Drive data, and also tenant-to-tenant migrations.

Can we buy or renew Microsoft 365 licenses through ISS?

Yes. We provide license sales and renewals and help right-size licenses to your needs.

Do we need an in-house IT team for M365ProCare?

No. Our experts manage your Microsoft 365 environment remotely.

What does a security assessment involve?

Vulnerability assessment and penetration testing (VAPT) to identify weaknesses, with findings reported to your team.

How quickly will you respond?

We typically respond within 1 business day.
